React	Redux	TypeScript	FIGMA	Git	Rest APIs	WordPress
Next.js	Node.js	JavaScript	TailwindCSS	SASS	AJAX	Shopify
React Native	MongoDB	Storybook	Styled Components	Jest	AGILE	Squarespace

PROFESSIONAL EXPERIENCE

JustGo Health, Frontend Developer • *Ghana (Remote)* *08/2021 - Present*

Played a key role as one of the dedicated React Developers for building the frontend for a health screening tool, the startup's MVP, along with other company projects.

- Simplified complex workflows by leveraging modularization techniques in React. This strategic approach was able to effectively streamline the development process and deliver a high-quality product.
- Reduced development time by developing customizable, reusable, and dynamic UI components that could be easily leveraged by other developers. Also, ensured that the components could be customized and adapted by other developers with ease.
- Solved complex problems with creativity by learning and adapting to unique technologies in order to craft solutions that meet the ever-changing needs of the company.

World Simplified UG, Frontend Developer Intern • *Germany (Remote)* *01/2023 – 05/2023*

Leveraged my expertise in React to contribute to the complete rebuild of the company's SaaS accounting software into a modern, state-of-the-art UI React application.

- Improved functionality and fixed bugs of an outdated application by leveraging React Functional Components and Hooks to create new UI components that were easily integrated into the existing application.
- Precisely translated simple and complex UI designs into well-organized and highly functional code. The resulting product accurately projected the user experience intent of the design from the design team.

Very Ghanaian, Frontend Developer • *Ghana (Part Time)* *02/2023 – 05/2023*

Played the lead role in building a modern web application representing the brand's identity using Squarespace, HMTL5, CSS3, and JavaScript.

- Increased collaboration speed by initiating numerous brainstorming sessions which encouraged faster iterations.
- Overcame development limitations on Squarespace, by writing custom HTML5, CSS3, and JavaScript code to extend platform functionality and provide additional customization options for projects.

Web Developer • *Freelance* *07/2021 – 05/2022*

Leveraged my expertise in Frontend Development to deliver tailored solutions that align with business objectives.

- **Green Shop**
  Live Site • GitHub

  Spearheaded an e-commerce app aimed at bridging the gap between local fashion designers and their potential customers. Employed modern technologies such as Next.js, MongoDB, Next-Auth, JS-Cookie etc.

- **Church Blog**
  Live Site • GitHub

  Played a volunteered role in enhancing my church's branding and advertising efforts by developing a modern and visually appealing web application. I leveraged Next.js, Framer Motion, and Tailwind CSS to ensure high performance and optimal user experience.

- **De Favored Saloon | Mobile App**
  Live Site • Expo Link • GitHub

  Utilized React Native and Expo to build a mobile application that streamlines appointment booking processes, enhances service delivery and manages customers more efficiently.

OPEN-SOURCE CONTRIBUTIONS

Love collaborating on a team, experiencing diverse talents and building projects that every contributor can be proud of.

- Built Pagination feature for an open-source Real Estate App that got merged to base. View Pull Request
- Made issue reports to make the project's link more accessible to other developers. View Issue
- Fixed a bug in a pagination feature. View Pull Request

EDUCATION

BSc. in Accounting and Finance • *University of Professional Studies, Accra* • *2016 - 2020*

CERTIFICATIONS

Cisco Software Engineering Virtual Experience Program on Forage • *JAN, 2023*
Built the UI of a locally hosted dashboard called Sextant that displays the Public and Private IP Adress of users.

Align Technology Virtual Experience Program on Forage • *JAN, 2023*
Practiced project planning and scoping tasks for a frontend prototype.
